

Lisa Wheeler Pollington Nancy, I don't care if she feeds the dog prime beef on gold plated dishes. If wants racing ended, she's not going to get her hands on one of my dogs if I have anything to do with it. Nothing to hide. I suggested a discussion first, try to educate and convince. After that, if she still wants racing ended, no dog. She is welcome to join all our facebook pages and see there is nothing to hide---might be a great way to educate.
